About the Evaluation

Report Creator : **GoodHabitZ UX Team**
Evaluation Commissioner : **GoodHabitZ**
Evaluation date : **2025-06-30T10:34:47.195Z**

Edit

Executive Summary

The accessibility evaluation of the course-focused platform revealed a commendable compliance rate of 100% across the 51 testable WCAG criteria, ensuring optimal access to learning content. Key observations highlighted the effective design of the evaluated page types, including the Login Page, Home Page, and Course-related content, with no failures identified during the assessment. This comprehensive review prioritized content consumption and learning progression, affirming the platform's commitment to providing an accessible educational experience.

Edit

Scope of the Evaluation

Website name : **GoodHabitZ E-learning Platform**

Scope of the website :

****Scope Description for WCAG-EM Accessibility Audit**** The scope of this evaluation encompasses all web content of the course platform for GoodHabitZ, located at <https://goodhabitZ.com/>. The audit specifically focuses on the following pages: - ****Home Page:**** Serves as the main entry point for users. - ****Explore Page:**** Facilitates content discovery for available courses. - ****Learning Content Pages:**** - Course Page: Provides detailed information about specific courses. - Lesson Page: Delivers instructional content within a course. - ****Other Functionality Pages:**** - Login Page: Enables user access to the platform. - Text-Based Activities: Supports various interactive course components. This assessment emphasizes user workflows related to course discovery, enrollment, and content consumption, while excluding evaluation of assessment functionalities. The selected pages represent critical paths in the user journey, allowing for a focused analysis of core learning content delivery and navigation.

WCAG Version :

2.2

Conformance target :

AA

Accessibility support baseline :

Accessibility Support Baseline The accessibility support baseline for this WCAG-EM audit is defined as follows: - ****Web Browser:**** - Google Chrome (primary testing browser) - ****Assistive Technologies:**** - Screen Readers: - Assistiv Labs (for screen reader testing) - Keyboard Navigation: - MagentaA11y (for keyboard navigation and focus testing) - Low Vision & Color-Blindness Simulation: - Stark Accessibility tools (for low vision and color-blindness simulation) - Media Accessibility: - Web-Based Media Player Accessibility Comparison Table (for media accessibility) - ****Testing Tools:**** - WAVE Accessibility Checker (for alt-text and ARIA validation) - Image Alt Text Viewer (for alternative text analysis) - Funkify (disability simulator for various accessibility scenarios) - WCAG Color Contrast Checker (for contrast ratio verification) - IBM Equal Access Accessibility Checker (for automated testing) - AInspector WCAG (for comprehensive accessibility evaluation) This baseline reflects the specific tools and methodologies utilized during the evaluation of seven page types, ensuring a thorough assessment of accessibility for course content consumers using various assistive technologies, including screen readers for text content, captions for video content, and keyboard navigation for course interaction.

Additional evaluation requirements :

Additional Evaluation Requirements for WCAG-EM Accessibility Audit - ****Comprehensive Content Evaluation****: The audit will assess all learning content for accessibility, ensuring that multimedia alternatives are available and effective for diverse learners. - ****Detailed Reporting****: The report will include: - A complete list of all identified accessibility errors, not limited to examples. - Specific descriptions of each problem encountered, along with actionable repair suggestions. - ****Scope of Evaluation****: - All web pages and content related to learning materials will be evaluated, not just a selected

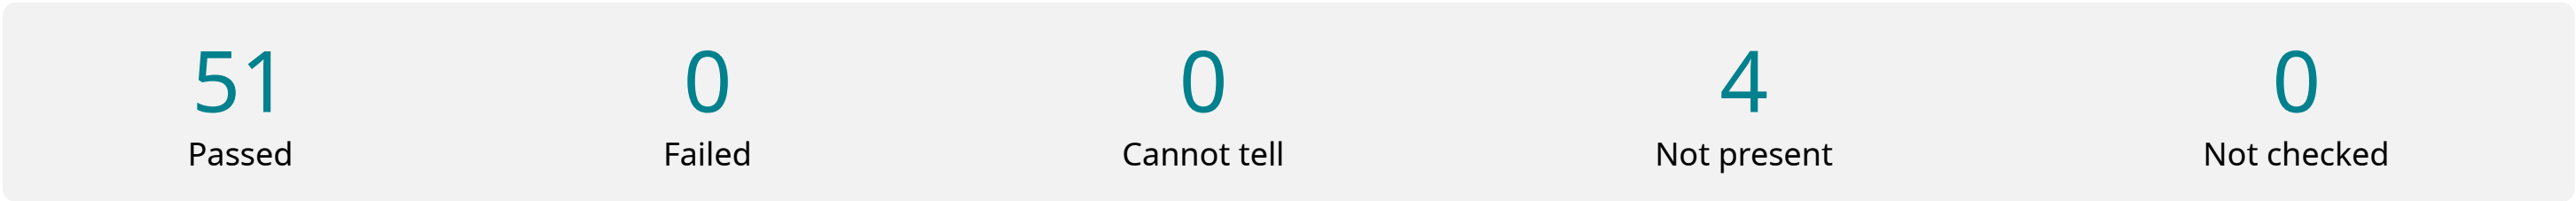

sample. - Focus on ensuring seamless course progression without assessment barriers, enhancing navigation efficiency. - **Testing Methodology**: - Evaluation will include cross-browser compatibility checks to ensure consistent accessibility across different platforms. - Responsive design testing to confirm that accessibility features function correctly across various device sizes. - Assistive technology testing (e.g., screen readers) will be conducted to validate the usability of content for individuals with disabilities. - **Learning Comprehension Focus**: The audit will specifically evaluate the accessibility of content that impacts learning comprehension, ensuring that all users can navigate and understand the material effectively. - **Feedback Mechanism**: The report will outline a mechanism for user feedback on accessibility issues encountered during the learning experience. These requirements aim to enhance the overall accessibility and usability of the web content while aligning with WCAG 2.2 Level AA and beyond.

Specifically, the video provides clear options for users to pause, play, and adjust volume settings without any barriers. This demonstrates full compliance with WCAG 1.4.2 (Audio Control). This ensures optimal accessibility for users with disabilities, allowing them to engage with the content effectively. By meeting this criterion, the platform enhances the overall user experience, ensuring that individuals with auditory disabilities can interact with multimedia content seamlessly.</div>	<div></div> <div>(https://www.w3.org/WAI/eval/report-tool/evaluation/audit-sample#criterion-142)</div>

Web Technology

HTML,CSS,WAI-ARIA,JavaScript

Recording of Evaluation Specifics

The evaluation utilized a comprehensive approach, employing a combination of manual testing in Google Chrome and various assistive technologies, including MagentaA11y for keyboard navigation and Assistiv Labs for screen reader compatibility. Techniques such as visual accessibility testing with Stark, ARIA and semantic analysis using WAVE, and automated checks via IBM Equal Access ensured thorough coverage of multimedia accessibility and interactive content engagement across the seven audited pages. This assessment focused on content delivery pathways from course discovery to lesson completion, with detailed observations recorded for further analysis.
